

All listed prices are for either retrofit installations or installations carried out at new build properties. The insurance policies we supply only offer cover for domestic residential dwellings and do not include cover for commercial property installations. These are just some of the insurance policy cover limits and features that we can arrange. We are not the insurer, we are an insurance broker and cover is subject to the insurer's full policy terms and conditions. Prices listed are subject to Insurance Premium Tax which is charged at the current rate of 12% and a £1.75 +VAT Registration Fee.
